Little Miui 12.5 Android tracker update 11 Tracker Update for all the little new phones updates are added at the bottom of this Storyà ¢ | à ¢ |. Original history (published December 13, 2020) follows: Xiaomià ¢ S MIŪI leather is easily one of the most drums rich in functionality for Android phones. Over the years, the company has refined its skin a ton that is because a huge fan-base is accumulated in many regions. The latest version of his skin is nicknamed Miui 12 and was announced on April 27, 2020 and since then it was pushed to almost all eligible Xiaomi phones. Xiaomi redmi k30 pro aka little f2 pro at the moment, there are still some phones left to climb the stable update and in case you are interested in the state of miui 12 for your phone, you can check our dedicated tracker with the address book here. Having said that, since MIUI 12 is already available on 31 phones, most of us have taken that the next step for Xiaomi will be to release the Miui 13 update. However, it seems that Xiaomi is not yet done with the His skin Miui 12. From its initial version, the company constantly adds new features and improvements through software updates. Standard Redmi Note 9 AKA Redmi 10x 4g in China and recent developments indicate that the company is now greasing to release MIUI 12.5. You can read more about the next upgrade by intertwining here. The MIUI 12.5 update should bring some new features, changes and user interface improvements, however, will not be the most important of an update which is likely to start rolling a little later after next year. It is not very well known on the next MIUI 12.5 update at the time of Of this, but we expect to see some features and changes in the user interface that have been in tests like the PDF converter in the Gallery app, a renewed user interface that have been in tests like the PDF converter in the Gallery app, a renewed user interface that have been in tests like the PDF converter in the Gallery app, a renewed user interface that have been in tests like the PDF converter in the Gallery app, a renewed user interface that have been in tests like the PDF converter in the Gallery app, a renewed user interface that have been in tests like the PDF converter in the Gallery app, a renewed user interface in certain sections and more to add with the new skin. Xiaomi To help you keep track of all developments related to MIUI 12.5, we invented this page to track all Xiaomi, redmi devices that will receive the MIUI 12.5 update. Like our pursuer for MIUI 12, WEA to be sharing details All ROMs based region, ie, China (CN), global (MI), Europe (EU), India (in), Indonesia (ID), and Russia (RU). Xiaomi can release the Miui 12.5 update next to a new Android version for some phones while others can get the new skin without the impact in the Android version.
