The symmetry, the beautiful simplicity of the solution, and the fact that 80 percent of the participants were effectively blinded by the limits of Guilford's square LED and readers of his books to jump to the conclusion of the conclusion that creativity forces you to get out of the box. But you will find numerous situations where a creative breakthrough is starting you in the face. In other words, the "A-trick" was revealed in advance. However, the correct solution requires you to draw lines that extend beyond the area defined by the points. You are reading a free preview, pages 1720 to 1726 are not shown in this preview. Although they were not instructed to refrain from considering such a solution, they could not "see" the white space beyond the bounds of the square. It was an appealing and apparently convincing message. The nine-point puzzle and the phrase "what that means out of the box" became metaphors for creativity and spread like a wildfire into marketing, management, psychology, the creative arts, engineering and self-improvement circles. You are reading a free preview of pages 1838 to 1887 not shown in this preview. Because they didn't, obviously, they weren't as creative or smart as they had thought before, and they needed to call in creative experts. You are reading a free preview of the preview 1518 to 1539 is not shown in this preview. Would you like to guess the percentage of participants in the second group who solved the puzzle correctly? Of course, in real life, you will not find it in the pictures. One of Guilford's most famous studies was the nine-point puzzle. In other words, the difference could easily be due to what statisticians call sampling error. In fact, only a meager 25 per cent of the participants in the second group who solved the puzzle correctly. You are reading a free preview Pages 1083 to 1205 are not shown in this preview. That is, direct and explicit instructions to think outside the box did not help. You are reading a free preview Pages 1684 to 1704 are not shown in this preview. The second group was told that the solution required 3 lines to be drawn outside the imaginary box that bordered the dot matrix. You are reading a free preview Pages 335 to 353 are not shown in this preview. I challenge the research subjects to connect the nine points using only four straight lines without lifting their pencils from the page. Both teams followed the same protocol of dividing participants into two groups. You are reading a free preview Pages 1771 to 1786 are not shown in this preview. Speakers, trainers, training program programmers, organizational consultants, and university professors had much to say about the vast benefits of innovative thinking. Most people assume that 60% to 90% of the group given the hint of solving the puzzle easily. However, participants did not improve performance even when instructed specifically to do so. From night to night, it seems that creativity's gurus everywhere were teaching managers how to think outside the box. "Is a good idea. Q.
