Photo of courtesy: Future Publishing / Getty Images If you have a new phone, tablet or computer, you are probably trying to download some new apps to make the most of your new technology. Short to Â ¢ â,¬ å "Application", the apps allow you to do everything from listening to music to synchronize your phone to your car to play. With so many apps to choose, however, it can be a bit daunting If you don't know how to download them. Fortunately, the app download can be fast, simple and easy regardless of the type of technology you are using. Read on to learn how and where to download app. When you download a file on the network, either from A store or elsewhere, a file hosted on an online server is copied to the computer. If you have never been online, both on a phone or computer, you probably already downloaded the files on many occasions. The apps are not different Â ¢ Â , ¬ ™They are only specific types of files that drains from the Internet. Courtesy Photo: Scott Barbour / Getty Images apps are generally configured as executable files (.exe), although the apps think for Apple devices are often available as a file app (.app) or DMG (.dmg). Sometimes (especially when it is designed for computers), an app is compressed in a zip (.zip or .zipx) file to save space. To do this, you may need another program, like WinZip or 7-Zip, to open it, even if you might even be able to open it from the left or by right-clicking if the device has arrived with the Possibility to open zip files. In many cases, however, the download of an app is as simple as by clicking a button on the app page. As long as it is not enough space on your device, the app will probably be ready for use once the download was done. Android is an operating system used for phones, tablets and more. The odds are that if your phone is not an iPhone, it is probably probably an Android device Â ¢ â,¬ ™The brands include Samsung, Huawei, LG, Motorola, ZTE and many others. To download app for an Android device , You can visit the Android website or use the Google Play app. (It is often pre-installed on phones and tablets, so you may already have it.) Be aware that you may have probably required access with your Google account or Create one if you don't already have it. Photo of courtesy: SOPA Pictures / Getty Images Open the Google Play store on your device and then look for the specific name of the app or any larger category you may interest you. Click on the result of the ' app to learn more. If the app is free, it should start downloading; otherwise, you will be asked to pay it. In both cases, once the file is downloaded, it is good to go. Microsoft Host Apps on its Website, which is You can access via any device with a web browser. You can use the site to download app for tablets, computers, phones, Xbox consoles, virtual reality set and more, so it's important to check the system requirements on the page of each App To ensure that the app is compatible with your device. Courtesy photo: Kim Kulish / Getty Images Select any free app or It is interested in seeing a brief description of the app. If you choose a paid app, you will be asked to enter credit card information or a gift card to complete your order. Apple App Store hosts apps designed for iPhone, iPad and other Apple devices. As with Google Play, it is often pre-installed on telephones. Like other app stores, allows you to filter the apps by category, including included App, more recent apps, popular apps, theme categories and more. Choose the app you want and follow the on-screen instructions to download it to your device. You will need to access or create an account completing the purchase.
