If you have less than 30 students, you will have to play the remaining cards and distribute them so that some students have more than one. Choose a student to start and ask the kind who has a word that rime with the lower image of your card. For example, what do you have a word that rhyme with nose? Everyone will look at their cards in the upper photo to see if rhyme with the word nose. The student who has the nose, will raise his hand and tell the class that the nose. Then they will continue to go to the bottom of your card and ask, who has a word that rhymes with the picture at the bottom of your card. The game until all the rhymes have been paired. To play as a small group or 2 players. You will play in the same way as before, but you will have to distribute each of the deck cards. Each group of the group must have a game to use. First, say the words of each card and ask the children to hold them (this familiarizes them with the cards). To play the game, slowly recite the children's song (you may want to pause in the keywords). Each time children listen to one of the keywords, they must hold that card. Repeat the game as many times as the children stressed. When we play this game in my classroom, I have my own card game to use along with the children to help them indicate when holding a letter.
