Indian history question and answer

Windows only: Test your LCD monitor for dead or stuck pixels with simple freeware application IsMyLcdOK. There's not much to the program: Just run it and then walk through the battery of onscreen tests designed to isolate dead or stuck pixels. Chances are you may already have an idea where you monitor's pixels have gone awry, but with IsMyLcdOK you can be sure to spot any bad pixel. Once you've done that, take a look at our previous guides to fixing dead pixels, repairing stuck pixels, or removing LCD image burn-in. IsMyLcdOK is freeware, Windows only.The eHow wiki has posted a tutorial for fixing dead pixels on an LCD monitor.Read moreIsMyLcdOK [via Shell Extension City] JHM CareLink is a web-based application for connecting JHM member organizations to community practices. Through JHM CareLink, community users can gain secure access to select patient information in the JHM EMR data repository and improve the continuity of care. This continuity provides many benefits for our patients, including the following: Provides a more transparent flow of information between physicians. Makes it easier for external physicians to place referrals and orders to JHM. Connects clinicians at JHM with specialists using e-visits, providing care to a broader group of patients. Lets JHM send releases of information electronically to community clinics. Gives your community clinics access to review the patient's chart for coding and following up on claims. Allows for coordination of social services outside of JHM. JHM CareLink is not an EMR solution; it is a mostly read-only application with a few service-oriented features, such as procedure order entry and co-signing home health orders. JHM CareLink provides referring physicians with access to their patients' medical records for 90 days following a physician consultation, labs or imaging tests, outpatient visits or hospitalization at The Johns Hopkins Hospital, Johns Hopkins Bayview Medical Center, Howard County General Hospital, Sibley Memorial Hospital, Johns Hopkins All Children's Hospital and Johns Hopkins physicians' outpatient services. You can also order a specialty consultation to be scheduled by the patient. Community users outside of JHM who need to review the clinical and administrative information of patients seen within Johns Hopkins Medicine member organizations. Community users could include the following: Referring physicians Referred-to physicians Contracted physicians Community physicians and their support staff Legal offices or agencies requesting documentation through HIM Community-based and public health organizations There is no cost associated with using JHM CareLink. Access to the internet using a commercial browser such as Chrome (recommended) or Safari. The use of Internet Explorer is discouraged. You can request JHM CareLink access for clinical staff, nonclinical staff and office administrators in your practice. Each staff member will need to enroll in Johns Hopkins CareLink, electronically sign the terms and conditions, and abide by rules of patient confidentiality. You and your clinical staff, including physician assistants, nurses, administrative personnel and office manager, will have access to your patients' medical records. At least one person at your site must be designated as the site administrator, who will have additional administrative responsibilities. Self-service password reset (available 24 hours)Can my site administrator reset my password?Yes, your site administrator can reset your password.I forgot my password and/or my challenge questions.Please call the Help Desk, available 24/7 at 855-284-5465, and ask to open a CareLink ticket for password resets. Please allow up to 48 hours for processing your request. We highly encourage you to set up the challenge questions so you can reset your password automatically via self-service. Since you already have access to the full version of Epic when you are in the hospital, please use the In Basket provided on that version. Contact your local technical support. The printing functionality is not controlled by CareLink. You need to check if your local computer has the correct drivers and setup for your network or local printer. The physician needs to grant In Basket access to the nurse first. Once this is done, the nurse can attach to the desired In Basket. Please ask the research coordinator to add the patient to the group. Please refer to page 20 of the following guide. Please refer to this tip sheet. If you cannot find the patient, please contact registration at 410-955-5000 to verify the full demographic information of the patient. Please contact your site administrator, who is your first point of contact for any questions/problems. If the site administrator is not able to assist you, please call the Help Desk, available 24/7 at 855-284-5465, and ask for help with CareLink. Please contact the JHM CareLink team at hopkinscarelink@jhmi.edu. This is not for urgent issues, and the CareLink team will respond within 48 hours. These days, our culture rewards strong opinions and quick-draw conclusions. In a time when every side seems convinced it has the answers, The Atlantic and HBO are partnering on a series of short films that challenge our certainties. Civil discourse ultimately depends on a recognition that none of us has a complete understanding of the world—and that we're at our best when we engage with arguments that confront our deepest beliefs. This is how we, as a society, move toward a better and shared future. We invite you to #QuestionYourAnswers with us. Should I Be Scared?Jeffrey Wright, 03:22 Jeffrey Wright asks: Should he be scared? TypecastMichael K. Williams, 02:52 Michael K. Williams asks: Is he being typecast? My daughter has been asking a lot of questions lately. We were sharing some "just us" time the other night after her brother fell asleep, and she wanted to know whose idea it was to get a divorce - mine, or her Dad's? Oh boy. I gave her a diplomatic "Well, it was what we both wanted..." answer, but she wasn't stopping there. "No Mom, I mean, who said the words first?" She asked, "Who said I want a divorce the very first time?" He did, and he did it in an email because he didn't have the guts to say it to my face. "Well, it wasn't really like that, sweetheart," I stalled. "We had both been unhappy for a long time, so when we finally did discuss it, it wasn't a surprise and it was what we were both thinking about." "Why didn't you try counseling?" She persisted. "Kaya at school said her parents went to counseling and they didn't get a divorce." "Yes, that works for some people, honey." People who don't have another woman involved that the husband firmly plans on having a life with... "Maybe you should try it. Maybe it would work for you." "Anna, I know you mean well, and I know you'd like this to work instead of us getting a divorce, but that's just not going to be. Your Dad and I have moved too far past trying to work this out. This is what's happening now, even if it isn't what's easiest or what feels the best at this moment for everyone." She finally changed the subject and we talked about school and life and movies and life and our favorite flavor of pixie sticks and life. Then she fell asleep, and I watched her, feeling again the weight of letting her down. Someday, she'll ask these questions again, and she'll get more honest answers. She doesn't need to know every detail, certainly, and I don't want to ever vilify her father to her. He's the only father she's got, after all, and despite his poor choices, he's still a good guy, at heart. But she should know that there comes a point when you have to decide how much more you can take. When you realize you have children, and they are looking at you as the model for the relationships they will have in the future. When you know, beyond all doubt that you have to stand up for yourself, and for your daughter - and who she'll grow to be.
