Seal online warrior leveling guide.

Warrior Build (Create and translate by Lunarez, Thai server player.) Slaying their foes with great swords and hunts the evils with might and strength. For the reason of easy playing and suitable for newbies (and awesome clothes), Warrior becomes the most popular in every server of seal online. There're 3 build for a warrior that commonly be found ,STR build ,Critical build ,and HP build. STR Build Warrior With the powerful strength, slice their enemies with incredible power and speed. STR warrior's stats are based on STR, with a few amount on AGI for equipments. Their attack have a very good damage, but Awesome damage by the stats that put every spare point to STR. Have average defence if have some good upgraded armors. The most easiest build for newbs. Easily play. CONs Low accuracy and critical rate Low HP (Around 2000 at lvl 80 with no HP equipment) Need both HP and AP pots in leveling Critical Build Warrior Instead of attacking with their brutal force, Critical warrior mainly base on AGI for their accuracy and critical rate. Even that their damages aren't as strong as STR warrior, the double damage of critical strike made their combos become very effective. Suitable for berserker class changing. Stats : Switch between 3 STR and 3 AGI. (Exp: level 1 you put 3 STR , and when you become level 2 , put all 3 points to AGI) Skill : Suitable for All Combo skills.(GS Combo, GS Combo2,Master Combo). Spare some SP on Enrage for Atk Bonus and Acceleration for moving spd. Don't forget to max Concentrate for fast XP gain. Suitable Accessories : Wings are the most suitable for Critical warrior which depends on their combo. They gift you some ATK Spd and DEF so you can handle the damage you gain from the mobs. If you think you're tough enough, use Warrior Piya Glove which gives you no DEF but a lot of ATK and ATK Spd. PROs Good accuracy and critical rate, your attack miss less often than STR one. Need less AP pots in leveling. Exciting and fun becuz you have to use combo. Quickest HP regenerate while you sleep. CONs Low ATK Low HP (Around 2000 at lvl 80 with no HP equipment) Need a lot of HP pots Build Warrior Opposite side of other build that empowering their attack, HP warrior is good at DEF and have a lot of HP. Their HP are as much as Knight, maybe greater, because the reason that warrior get much HP than Knight for a VIT. (Knight get 35 HP per VIT, Warrior get 40). However, your PRO can't compare with the pure tanker like knight. HP warrior is suitable for the one who usually leveling with his parties. Stats : Switch between "2 STR + 1 VIT" and "1 STR + 1 AGI + 1 VIT" Skill : Suitale for Hurricane Skills(Hurricane Slash and Blazing Slash) and Intimidate skill. If you love in soloing, learn combos instead. Suitable Accessories : Anything that give you a lot of DEF, PROs Huge amount of HP Have good defence CONs Low accuracy and critical rate Low ATK Need a parties because your damage is so poor Guide by Lunarez You can edit if anything wrong :) Di Tutorial kali ini, gw akan membahas mengenai Fast Leveling. Kenapa Fast Leveling diperlukan? Karena ada beberapa player yang mau cepat-cepat untuk wisuda alias mencapai level 251. Gw tahu kalau solo leveling itu tantangan dari masing-masing player. Mau cepat atau lambat, semua kembali ke selera player-nya. Oleh karena itu, gw mutusin untuk memberikan sedikit pengetahuan gw akan Fast Leveling. Tutorial kali ini, gw berlaku untuk semua job yang ada di Seal Blade of Destiny. Dan gw bahasanya secara garis besarnya saja, sampai level 251. So, here we go!! Untuk memulai Fast Leveling, material yang kalian butuhkan itu adalah sebagai berikut: Ketika kalian membuat Character baru, pilihlah Tutorial Zone sebagai tempat awal kalian untuk memulai petualangan di dunia Shitz. Ikuti semua guide yang ada di Tutorial Zone, sampai kalian mencapai level 12-14. Setelah itu, carilah DE (singkatkan Double Experience) di kota Elim. Pakai DE tersebut dan pergila ke Outer Wall of Lime. Di map tersebut, lawanlah (Skilled) Mage Piya sampai kalian mencapai level 25-30. Ketika sudah mencapai level tersebut, pindalah ke Samba Cactus yang berada di Travia Mountain sampai level kalian mencapai 40-43. Cari Speed Party di Travia Mountain agar bisa mendapat banyak bonus Exp. Masih di map yang sama, yaitu Travia Mountain, kalian pindahlah ke tempat monster Meow-gician berada. Kalian leveling sampai level 50 di Meow-gician. Selesai dari Meow-gician, pindahlah ke map Glass Plains. Monster yang harus kalian lawan adalah Solar. Sampai kalian mencapai level 63-76. Sampai disini, leveling hari pertama sudah hampir selesai. Pergila ke kota Zaid dan carilah NPC High Level Quest Manager di kota tersebut. Fame kalian akan menjadi Recruit. Carilah Speed Party yang berada di Glass Plains, dan mulai leveling lagi di Solar, sampai mencapai level 85. Setelah itu, pergi ke monster yang namanya Crack Crab yang juga berada di Glass Plains. Mulailah leveling di Crack Crab sampai level 100. Lakukan quest 4 Heroes (bahannya 1 pcs Nixie's Scale, 1pcs Water, 1pcs Magic Powder, 3pcs Milk), quest Dimension and quest Battle Pet agar fame kalian menjadi Rookie. Ketika telah selesai melakukan quest Dimension dan Battle Pet, carilah Speed Party di West of Red Soil. Kalian akan leveling di map West of Red Soil cukup lama,dan lawanlah monster Cute Turtle sampai level 120. Terus pindah ke Pumped Zombie sampai level 150. Leveling hari kedua telah selesai. Kali ini, gw sarankan untuk pindah ke East of Red Soil dan leveling di tempat monster Shrewd Turtle atau [Mad Warrior] Cankura sampai kalian mencapai level 170. Mash di map yang sama, tadi carilah monster bernama Sandra di map tersebut sampai level kalian 180-185. Sampai kalian bisa melanjutkan leveling di Sage Tower lantai satu, sampai level 200. Penjelasan singkatnya, bisa dilihat di bawah ini: Level 1 - 14 : Tutorial Zone Level 14 - 30 : (Skilled) Mage Piya Level 30 - 43 : Samba Cactus Level 43 - 50 : Meow-gician Level 50 - 76 : Solar Quest Ice Crystal di Zaid Level 76 - 85 : Solar Level 85 - 100 : Crack Crab Quest 4 Heroes, quest Battle Pet Level 100 - 120 : Cute Turtle Level 120 - 150 : Pumped Zombie Level 150 - 170 : Shrewd Turtle / [Mad Warrior] Cankura Level 170 - 185 : Sandra Level 185 - 200 : Sage Tower F1 (Lantai Satu) Seperti itulah garis besar Fast Leveling yang bisa gw share kah ini. Pasti banyak yang bertanya-tanya, kenapa membutuhkan cegel atau tutorial yang pure nggak memakai modal awal, huthya sepih bisada aja, dinikmati grinding atau levelingnya. Fast Leveling kebanyakan digunakan bagi player yang sudah punya modal awal yang cukup. Sampai sini duh tutorial kali ini Bagi kalian yang mempunyai saran / kritik / pertanyaan, silahkan tulis komentar atau kirim formulir di Hubungi Penulis. Dan jangan lupa untuk klik "Suka" di Facebook Fans Page dan Share artikel ini. Thank you for reading my post...". "View source Getting to 30 in a day is easier than you thought! 1-10: Do the Level 10 - 10 Minutes Quest. Which will take 4-5min if you will need 1k to get to place to place faster if not you walk but its easy 10-9: Go 1 map South from Lime town, 2 map North from Elim, and into the large radish. They are good exp, AND NO download, they drop 25 heads rapidly. At this time I reach level 19 i had 100+ EXP fast, with radish, and the long walk of a friend to the thorn and i had never slept since i had 200+ EXP. Quests: 1. Kill all the radish in the north of Lime, which you decently also if you walk around Lime town, good spot for Killers. Wish at the top and also soft mud monster at 123 and you have a good chance to get Little Angel Wings. 25-30: The duration in the map where there were the pumpkin lies and the spiders. If you see a Ace knight you can come here at lvl 22 and get lvl 30 to then all you do is going to a small room close to the dungeons entrance and AoE if not you can combo them and use your skills this way you lvl fast and they drop a pretty good quest item. Mages can come here at lvl 23 Because by then your damage should be decent and you can also AoE just don't get hit as often. Wallah!! Edit: Voila??..., LOLOL Edited by Sanoo.
