How do i connect my logitech k750 keyboard to my mac

Solar-PoweredSlim ProfileFamiliar Mac Layout2.4 GHz Wireless Connectivity The K750 Wireless Connectivity and computers. It charges automatically when exposed to light and when fully charged, it works for at least three months. The keyboard features an environmental-friendly construction, plug-and-play functionality and a slim profile. It works right out of the box without the need of any software installation. This keyboard is a smart choice to save the environment while enjoying a comfortable and a productive computing experience. 1Description 2Light-Powered Keyboard 3Slim Profile 4Familiar Mac Layout5Comfortable Design6Advanced 2.4 GHz Wireless7Plug-and-Play Simplicity8Unifying Receiver9Green Features Wireless Connectivity and compatibility with your Mac computers. It charges automatically when exposed to light and when fully charged, it works for at least three months. The keyboard features an environmental-friendly construction, plug-and-play functionality and a slim profile. It works right out of the box without the need of any software installation. This keyboard is a smart choice to save the environment while enjoying a comfortable and a productive computing experience. The K750 Keyboard is a smart choice to save the environment while enjoying a comfortable and a productive computing experience. The K750 Keyboard is a light-powered keyboard that charges itself with lamplight or sunlight, indoors or outdoors. On a full charge it works for at least three months, even in total darkness. It thus allows you to use less energy and also reduces battery hassles. The keyboard is just 1/3" (8.47mm) thick and it features sleek lines and a thin profile. This stylish and streamlined keyboard adds style to your workspace whether you've got a laptop or a desktop. All the keys are located exactly where you expect them to be, including music controls, brightness controls, command keys and the eject key. The keyboard works right out of the box and requires no software installation. Combining the best of traditional keys are located exactly where you expect them to be, including music controls, brightness controls, command keys and the eject key. The keyboard works right out of the box and requires no software installation. Combining the best of traditional keys are located exactly where you expect them to be, including music controls, brightness controls, brightness controls, and the eject key. and a comfortable typing experience. The K750 Keyboard features an advanced 2.4 GHz wireless connection so you can work or play from anywhere within the range. The long-range wireless connection eliminates delays, dropouts and interference. The keyboard features an advanced 2.4 GHz wireless connection so you can work or play from anywhere within the range. wireless receiver into a USB port on your computer.
