JEE Main Previous Year Papers & Online Tests for January 2019 Check the JEE previous year papers for the January session (2019) with test links tabulated below: JEE Main Previous Year Question Papers 2014 - 2018 Candidates can now test their performance in JEE previous year papers (2014-2018) by taking the tests through the links provided in the table below: JEE Main Previous Year Paper PDF (2014-2018) JEE Main 2018 Offline Paper Detailed Analysis JEE Main 2018 Detailed Analysis JEE Main 2017 Offline Paper Detailed Analysis JEE Main 2017 Detailed Analysis JEE Main 2016 Offline Exam in-depth Analysis JEE Main 2016 cut off The JEE Main 2016 paper was easier than in 2015, which should increase the cut offs. However, since more students are going to be shortlisted (2 lac instead of 1.5 lac), the net cut offs will be lower than that of the previous year. The pie charts for each of the subjects below show how certain chapters have been more important than others in this year's exam. Moreover, by using Embibe's Learn Digest Question Pack, students would have gained a leg up during preparation. Concepts and questions from 80% of the top 15 chapters in Mathematics were represented in the Digest, as were 66.7% of Physics chapters and 53.3% of Chemistry chapters. Most important Mathematics chapters in JEE Main 2016 Offline Exam JEE Main 2016 - 11th vs 12th Weightage Physics Chemistry Mathematics Class 11th Class 12th Class 11th Class 12th Class 11th Class 12th Total Questions 131 71 218 1515 Total Marks 5268 4872 6060 % Marks 43.00% 57.00% 40.00% 60.00% 50.00% 50.00% Let's look deeper into accuracy, careless mistakes and time management. We had over 2000 questions on Embibe extremely similar to the questions asked in the JEE Main 2016. The attempts by students on those questions alone were over 5 lac. We compiled the data of these 5 lac+ attempts. Top 5 chapters with lowest predicted accuracy Here are the chapters where the accuracy sunk the lowest - Top 5 chapters where highest careless mistakes are likely to be made We track careless mistakes! These were the important chapters where most students made careless mistakes. Top 5 chapters where students will feel a time crunch This is collected through the data of overtime attempts. Here are the chapters where students wasted too much per question because they didn't know the fastest ways to solve them. We can take this same analysis even deeper, on to the concept level! For every question you practice on Embibe, we know its difficulty, concepts, and even formulae required to solve it. Top 5 concepts with lowest accuracy Name Accuracy Learn Need of modulation 10.34 Learn Characteristics of an ideal diode 18.18 Learn Examples of Electric field due to continuous charge and point charges 20.71 Learn Frequency Modulation 21.97 Learn Examples on Heat capacity 27.62 Learn Top 5 concepts with highest overtime attempts Name Wasted Attempts (%age) Learn Frequency Modulation 35.61 Learn De Broglie's wavelength of an accelerated charge 31.83 Learn Vapor phase composition over liquid solutions 30.21 Learn Vapor pressure of pure liquid 22.85 Learn Physical and Chemical Properties of Water 22.77 Learn Top 5 concepts with highest overtime attempts Name Overtime Attempts (%age) Learn Thermodynamic Processes 52.98 Learn OR Gate 39.72 Learn Line Passing through one point, given direction ratio parallel to Line 37.5 Learn Slope of Tangent and Normal Line 36.7 Learn Characteristics of Chemical Equilibrium 36.66 Learn Clear your weaknesses with Embibe!
