Photo courtesy: American Stock / Classicstock / Getty Images If you've ever seen movies like The Great Gatsby (2013), The Artist (2011) or Chicago (2002), it's easy to think of the 1920s as a big party. All the night owls of the era frequently indulged themselves in music, dancing and illegal cocktails with flappers, shebas and beatacati until the sun came â ¬" or them? Was the '20s really all that roars? Yes, there was an economic boom and a cultural revolution boosted by the invention of some important technologies. However, not everyone had the money to launch more gatsby level rays all the time. More than 100 years after the start of a tumultuous decade, people are still fascinated by the colorful reputation of the roaring 20s. Is this charm justified? More Americans were living in cities than on rural farmland for the first time. At the same time, technological innovations were on the rise, creating a wave in mass-produced consumerism that had all running on department stores. Cars, telephones, radios, refrigerators and other common devices were sold at prices that most families could afford. Photo courtesy: Bettmann / Getty Images Most of the country was also feeling the effects of the end of World War I. Religious leaders and government officials had less than a stronghold in the way people behaved, which they let them feel more free than ever. Women were able to vote, wear more provocative clothing, drive cars and have casual sex, thanks to the invention of the contraceptive device of the diaphragm. In the meantime, African Americans have laid the foundation for the movement of civil rights, because of the Harlem Renaissance, a wave of progressive art and sociological literature. While people had a sense of freedom of expression, not everyone had the funds to launch incredibly decadent parties. However, their appetite for consumerism and leisure activities is still at stake with the optimistic economy. For those who couldn't indulge in opulent parties and discos, there were many other popular ways to have fun. Photo Courtesy: Puttnam /Topical Press Agency/Hulton Archive/Getty Images By the end of the 1920s, there were more than 12 million households with 500 stations playing music and stories around the clock. Families spent hours sitting on their living room floors listening to the programs as a convenient way to enjoy a night in. If they wanted to go outdoors, a trip to the cinema was incredibly common. About 75% of all Americans visited theaters every week. If they didn't have money for a movie, families or groups of friends wanted to head on unit for the fun of it. Road trips with no real destination were a big deal back in the 1920s. Who would have thought traffic could be so funny? If you were among the lucky inhabitants of the city with access to huge bank accounts, then the 1920s were definitely a good roaring time. A lot of nightclubs played jazz, blues and dance music throughout the night for travelers. Many of these nightclubs were also technically talkeasies who supplied alcohol, which was illegal during the Proibition. Those clubs were where fashionable patrols adorned in short skirts and sporty stuffed haircuts and heavy makeup with little attention paid to the pressure of society to be courteous young women. Photo Courtesy: bpk/Salomon/ullstein bild/Getty Images But not every decadent indulgence came on the dance floor. To get into the sought-after "trusted pages" of the newspapers, the real key was to host your dinner party. Extravagant dinners at your home with a great staff of waiters and chefs were the real key to a good roaring. The host had to invest thousands of dollars in flowers and personalized seating cards alone, not to mention the various jellies, meats and sandwiches regularly found on the buffet table. For the most exclusive moments, guests have launched themed parties for their high society guests. You could dress up as the founding fathers, Hawaiians, prisoners or even children to entertain your attendees. Of course, all these exclusive social events came to symbolize a decade of sheer decadence, thanks to a temporarily growing economy. Not everyone continued with the Joneses during this wild period in history, but the ability to dance the Charleston to jazz music (without an iPhone in your pocket for kept the spirit of the Roaring 20s alive.
