## Mental Capacity Act 2005

### Record of an Assessment of Mental Capacity

This form is to be used to record assessments of capacity where a significant decision is required and there is a concern that the person may not be able to make it themselves. It should be completed by the relevant Decision Maker.

(Who fulfils this role will depend upon the nature of the decision but it is important that this is clarified at the outset)

The Decision Maker is responsible for the assessment of mental capacity but can seek the views of others who know the person to help them (see MCA Code of Practice 4.51 – 4.54). Referrals to specialist mental health or learning disability professionals may be needed in some particularly complex cases but is expected that social care staff will have the necessary skills to be able to make mental capacity assessments in most situations. Where a referral for specialist advice is thought to be necessary, the request must make it clear that the decision maker is not asking for a formal mental capacity assessment but rather for assistance in reaching their own conclusions.

The main exception to this principle is where the mental capacity assessment is likely to be subject to legal scrutiny, for example, as evidence relating to a Court of Protection application. In these cases the Court will expect to see a formal mental capacity assessment that has been undertaken by a psychiatrist.

**Background:**  
 The United Nations Development Programme (UNDP) is the UN's global development network, advancing for change and connecting countries to knowledge, experience and resources to help people build better lives. UNDP is funded by member states, nongovernmental organizations, foundations and UN agencies. It is based in New York and has offices in more than 170 countries and territories, working with governments and people on their own solutions to global and national development challenges. By drawing on the experience and political capital, they draw on the people of UNDP and our wide range of partners that can bring about results.

The Bureau for Policy and Programme Support (BPPS) has the responsibility for developing all relevant policy and guidance to support the results of UNDP's Strategic Plan and help countries to achieve the sustainable development goals. BPPS is also responsible for the UNDP corporate culture and values, and UNDP corporate messages, represents UNDP at multi-stakeholder fora including public-private dialogues, government and non-governmental organization dialogues, South-South and triangular cooperation initiatives, and works with UN agencies and other UN entities to implement thematic areas.

BPPS supports UNDP's 2014-2017 Strategic Plan, focusing on 7 outcomes including strengthening institutions to progressively deliver universal access to basic services (outcome 3). The HIV, Health and Development Group (HHD), within BPPS, is helping to contribute towards this outcome.

**UNDP HIV, Health and Development Strategy 2014-2017:**  
 UNDP HIV, Health and Development Strategy 2014-2017 challenges us based on the principles that health is both a driver and outcome of development, and that actions across a wide range of development sectors have a significant impact on health.

UNDP's work in HIV and health contributes to the Sustainable Development Goals by addressing the social, economic and environmental determinants of health, health-related inequities and governance.
