Wow destruction warlock pvp. Wow destruction warlock pvp guide.

The defensive 'stance' should come when: a) 2 of your team members are CCed (this includes you too). I used to play in AT too before merge, no matter what comp i run whether it's with a Rsham, a Rdruid, or a SubRogue and it's litteraly IMPOSSIBLE for me to beat them. February 22, 2015 Very decent thread. As Affli, i play in 2s with CoE spec and my stats are pretty similar to yours here. EG: with a shaman I let him to purge targets first; with a warrior I wait to get slows and Rend on them; with a DK I wait for slows and diseases on everyone. Shadowflame, Shadowfury are not allowed to be available in desperate mmoments. Corruption's full duration (18 sec) can be reached in 3 ways: by casting Haunt, Shadow Bolt AND Drain Life on someone already corrupted. THESE STATS ARE OUTDATED (THIS WAS THE META IN 2013 WITH 226/264 GEAR). Destruction If you like having the opportunity to global anyone, doing incredible amounts of constant burst and peeling alot better you should play this spec. Corrupt all targets in arena! Pets, opponents, gargoyle, mirror imagines, elementals. Thanks everybody! March 4, 2015 Hi Mercedesa, Thank for your Guide. Is very important to never cast Haunt in Warrior's Reflect or Shaman's Grounding. Now, assuming both healers have the same def CDs what will you gonna do? However, porting a Mage Polymorph while you're novad for 7 seconds and the fight is at the other pillar of your port is a major waste of teleporting. There are 2 options: fake cast in 0.1 time like start to cast a spell and then IMMEDIATELY cancel it. Is like in RL, who do the first punch will mostly with the fight. There will come the moment to cast something do, don't be rushy. The most powerful 3.3.5a warlock spell. When full dots are up and the setting phase is over, use it. Won't talk about Destro because I find it only viable with rsham because of the perma-purges, slow. When you get pinned on a place and the healer is LoSing your fear you can do nothing but wait for Shadowfury. Is it obviously that he's going to reflect, no? Haunt + Demon armor + Healthstone and Drain Life filler should get you from 50%-100%. You create a moment of hesitation amongs the dispellers in that team. Devour Magic didn't get the supposed CC? Cast a Shadow Bolt. This is exactly what im doing, but his pal just run in the other pillar (as usual i just face them in Nagrand Arena :() Im kitting war with shadowflame and stuff, but as i said he's on full dispell by pal. I use focus Banish macro only now. Gear is a bit outdated but still good to go. JUST PLAY 1358+ RESILIENCE EVERY GAME Affliction CoA spec stats Since the chance to be the target of your enemies is higher you should aim for more resilience instead of haste Affliction CoE spec stats You will want to sacrifice a little bit of resilience and Spell Power for haste since you will play with this spec (talked above about this). This should be your in-game love as Warlock. Spell lock on CD? So cast Searing Pain and /lol at them. WLP,WLD,HLP,HLD) and Fel armor vs spellcleaves and non-MS MCH comps. That's ~10k damage in a global and makes the switch on him inevitable. Well, Voidwalker should be used in more special situations. CB must be on cooldown 24/7 but as well as Haunt, don't get reflected on it or grounded. XI. February 20, 2015 I. Is a spell that have priority when you're dropping. Tricks XI. Use Demon armor vs meelecleaves or MCH with a MSer (eg. Searing pain does more damage and is a fire treed spell so if you get CSed on it, you can still get pressure by shadow tree. Standard Destruction spec for 3v3. As for Demonology part, I don't find it fun or viable. Just for his healer to los you more ? Keep in mind: a reflected/grounded chaos bolt/haunt/death coil makes you a shame for warlocks community. March 7, 2015 Amazing guide. Drain Life for Corruption. As an Affliction specced Warlock you don't want to tunnel and burst one target from beginning to end. Which of these two aff specs are better for 2s CoA or CoE ? The difference between good locks and average locks is knowing when to go DEF STYLE and when to go KILL MODE. VS Warriors beware! Never use portal when Bladestorm is up and you're getting pretty low or they already got a good kill set-up on you. Drain Life is channeled so it can go through LoS and it can give Shadow Trance procs. Since you'll want only the bonuses of your Head and Legs for your red gems you can put only yellow gems on chest. He probably stays focused on pummel bind awaiting you to cast; 'cast a non-important-tree' spell (EG: you're destro and managed to get a fear on healer while going for 3rd one and warrior is on you. So here's when Succubus is a bit better with the 0.5 Seduction cast. Gameplay IX. Searing Pain should be used only to bait interrupts. isnt it important to get about 100 hit to reach 4/5%? Portal can be used to avoid CC too. February 23, 2015 very good guide indeed, thank you i just have a question about hit rating, i see you have got about 38/58 hit rating only. Now this is the moment where the game is decided 50% (believe it or not). FEAR.FEAR. Spoiler: Show Want shoot @ mouseover Spoiler: Show # show for Destruction. Don't be stupid, don't be rushy. OBS: For shadowcleave (affliction/dk/healer) you should pick up Glyph of Howl of Terror. b) Your pet is dead. Is a good new way to start the dot rotation with 18 sec Corruption. VII. You can risk to fake their CS or cast Searing Pain. IT'S FORBIDDEN to use it in this way when they're in pressure and they will probably get CCs on someone in your team. Banish macro doesen't work anymore. Here's a link: Download my add-ons Also you can check this link to see some cool effect scripts: Spoiler: Show My UI: As a last word. Imagine full dots + a UA dispel. February 24, 2015 As you can see I take 3% hit talent in Affliction on every spec so I think I'll get overhitcapped if I would go for what you're saying. Introduction Made 100% by me for Arena Tournament&Molten Community. Stats VI. Gems Meta: Trenchant Earthsige Diamond (25 SP + 10 Haste). I feel that the huge step that helped me in arenas is the fact that I started using Focus and Target Arena1,2,3 macros. Is the worst place you can be forced to fight as a warlock. Is a shame for a lock to get -4k HP while warrior uses only 10 rage to reflect that. You'll never get kills without a CC only if the other team is bad. Destro is superior vs Spellcleaves because of Nether Protection yet more easily to counter as a team with a dispeller. IV. Thx ayways for the tips. That so, you can Fear on target and Howl the other/others so you can get a 3vs1 situation. http://www.twitch.tv/mercedesa Edited: November 3, 2021 Reason: gear February 20, 2015 Thanks for reposting it here. Fear can be used as a peeling spell, an interrupting spell and a KILL TIME spell. You can now achieve 1000 haste at cost of some spell power but it's fun especially for those that enjoy fast ticking dots. V. Fake the reflects. EG: One opposite member is low and one of the others have CS ready. Get dots up then Shadowflame for kiting. That's why is mandatory to fake all these things. Useful macros and addons III. It's about chances to succeed which are 70%-30% for PW :D play more, ggs, gl March 5, 2015 What i wanted to say is im trying to drag the Hpal on middle to land him a fear... The moment "Should I dispel it or not?" comes and you can get important seconds in setting up the kill. Destruction Nothing more to say. Always push in. Be smarter. CS the DPS! There are plenty of opportunities so your team shouldn't risk anything. You have to be Seduction specced and geared (0/3 Suppression and 3/3 Improved Succubus + additional hit gear to be hit-capped) because 1.5 cast is useless. :D Kite around pillar. Get a timer on HoJ and use your devour magic to get sacred shield. Think about it. Your Mage should get all traps of shaman then or it's a lose after the 2nd full trap on shaman. Thank you for sharing. @Mercedesa: thanks for the great guide. Succubus works as a desperate measure to CC or to bait interrupts/charges. Keep in mind that setting up and starting the game strategy is not the same with the defensive play. Yellow: Quick King's Amber (20 haste) and Mystic King's Amber. The guide was made 100% by me. IT DOESEN'T MATTER what you do if you feel there is a SMALL possibility to lose the game as long as you can keep everyone safe. Usage of portal is different and depends on situation. August 21, 2015 Hello and thanks for the kind words. October 3, 2015 February 11, 2016 Bumping myself for the good of all warlocks out there :) May 5, 2016 Bumping myself for all y'all warlocks out there It offers dispel protection of your magic debuffs and deals a good amount of damage. A good situation when Succubus can be used is MLS vs ATC match-up. The secret in winning is not pressure, is how long you can lock other team, preventing them to peel or heal. X. Fel intelligence. You have to have it on the target you focus aswell on other targets. When you're forced to go defensive do anything to stabilize the team and counter-attack them. It will hit for same damage as an Incinerate if it lands or if he interrupts it you can do your rotation with fire spells). Shadowflame undispellable You chased the player to fear him and you cannot get it. Achievements: -Gladiator (rank4) with LSP at 2529 -Rival (rank6) with LSP at 2529 -Rival (rank7) with WLPriest at 2526 Feel free to discuss below and contribute to improve this guide. Blue: Shattered Eye of Zul (10 haste + 12 SPen) or 12 SP + 12 SPen. If you just shadowflame him to slow he will probably already spamming dispel on self. Main pet in both specs. Here depends of your playstyle. Analyze the situation and take the best decision. If you have your Spell Lock ready put pet to attack that target. This is kinda late, but CoA spec if ur partner is melee or heals, and CoE if ure running with a caster. He's not dumb. However, the pet is fragile in 3v3 and meant to be tunneled by all teams. Spam the trash debuff until they get it. Gameplay Warlocks are the brain of every team they're in. The only moment you should "retreat" is when you want to bait one opposite member to outrange their healer. I recommend Eye of Zul gems. do i just mash it and it banish any possible target from the enemy team? It helps alot with controling everyone in arena and that's what a Warlock's to do. Is more viable than Affliction and a less to care one. An overview of the main 2 specs IV. I started playing lock after the server restart, never played lock before. CoE spec Normal Affliction spec. but I personally don't believe in it nor like it. It gives Shadow Trance procs a.k.a. no-casting-time Shadowbolts. Enchants VIII. Use it careful when you're using it to dispel major CDs. Offensive Devour Magic: you're casting Haunt on a warrior in middle and he has 1h+shield. Once someone in under 25% the game is in most cases over but do not celebrate too early. Voidwalked shield You're low and you need few more seconds to get healed up to a decent HP. Talents V. Searing Pain or Drain life? Must be raid and you're the Raid Leader. This pet can be good only in FEW situations to be at least as good as a Felhunter. Focus on getting CCs in order to score the kill. Before Haunt ends on about -0.1 do a Devour on warrior so your spell won't back fire to you. You can get good momentos with Shadowfury stun but you must bait them to be alltogether in order to get Immolate up and do the rest of rotation. How long for Fel Dom? Spam fear on everyone untill is full DRed. Now let's talk about Chaos Bolt. You need that but you missed in first place. Why? An overview of the main 2 specs Affliction Affliction excels at keeping multiple targets under constant pressure. and warlock pet at the same time ? Succubus. Enough. If you cannot get any dots (grounding, CSes, CCs, LoS) don't be shy to just spam Curses and Corruption on everyone. IX. Use it when warrios are out of charge/intercept or roques are out of Shadowstep to be able to get pressure/be topped up. Get a timer addon for all (I recommend Afflicted3) and always fake cast these counter effects. The answers provided help you deciding whether playing def or setting up. Is pretty hard to handle as Destro vs dispeller teams. I've a twitch channel where I stream mainly Warlock playstyle. Even Hpal/Dk is more easier to deal with.... Control and outlast opposite team's CDs. Is all about the quality of the gameplay. You know you can win the game after this critical momento. Was originally posted on old AT forums where it hit ~70.000 viewers and helped many people, not only Warlocks. You'll be novad in your portal for 7 seconds, incapable to do anything and he can Polymorph you for full when you get out. Stats So you got your talents and your glyphs. Fake, fake, fake, fake, fake, with a good lock in the team you can be able to reach high ratings. Same goes for grounding. 2.5k destro lock here blackrock server I like your affliction guides need work Overall very good guide for beginner and intermediate level locks. No Fel Dom. one guestion: how exacly does the Banish macro work ? What can he do to prevent damage or the incoming CC? But as you're a High rated Affli Warlock, i wanted to ask you how to deal against Hpal/Awar is 2 setup. c) They dropped one of you under 40%. Offensive and devensive dispel, Spell Lock. Fel Dom the Felhunter and try again. If you get CSed on Shadow tree you can freely cast your damage abilities but you cannot cast fear. The possibility that they will instant interrupt you is very high as they are expecting you to cast something to harm their low member. What to do? The gates are open! First thing you do is putting portal at a pillar and getting away of it. This is a must-do move that I know many warlocks missed it. Practicing you'll see no comp is unbeatable for affliction+rsham/druid but it takes time. Talk with your mates about these things and decide who should use the trinket or defensive cooldowns. Yes, Drain Life makes 14 sec Corruption up to a 18 sec one. Cheers! August 9, 2015 enjoyed this guide myself. Is an avoidable and important waste. Destruction Immolate is the main spell of this tree. Talents and glyphs Since we're talking about 3v3, there are only 3 specs viable more or less for Warlocks. Introduction II. You must make your enemies suffer and crawl in agony. Spam Curse of Weakness on meeles. Now it's time to get some gear. People can succeed with it as they did with, hmm.., fire mages? Devensive Warlock Play: Analyze your CDs, fear DRs on opponents and HP of your team. Which one of you is free? FEAR. Don't bring the fight in your starting area or around the portal. It can pierce through all absortion effects and shields and does a high amount of damage. Useful macros and addons Fear arena1 Spoiler: Show Fear arena3 Spoiler: Show Fear arena3 Spoiler: Show Target arena3 Spoile other raid pets Spoiler: Show #showtooltip /cast summon felhunter /script SetRaidTarget("", 7) /script SetRaidTarget("", 8) Focus Curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour Magic Spoiler: Show #showtooltip curse of exhaustion /cast [@focus] devour curse of tongues /cast [@focus] curse of tongues Devour Magic HEALER 3v3 Spoiler: Show /cast [@focus] banish macro #showtooltip corruption /cast [@focus] corruption bevour magic on me Spoiler: Show /cast [@player] devour magic /cast [@player] devo meelecleaves so you can drop resilience and get more haste. Spread dots on everyone, keep them under pressure and make them panic. im struggling as ****, Hpal is out of my range dispelling even if i use curse of exhaution him not matter what the dot is (UA, Corruption, etc...) Im trying to drag him middle with all the slow and damage full Warth War can do on me, but he just goes out of combat, mount up and join another pillar My Healer in the other cant even port) 2s is totally full of these Hpal/Awar heroes whereas i hold my own in soloq (im between 2k - 2k1) so i think im not that bad. II. You didn't dispel a CC on your partener and you MUST do it in order to survive. You can cast Conflagrate only with Immolate and Shadowflame only for desperate kiting measures and Incinerate and Chaos Bolt do 10% more damage with Immolate up. Now you must decide whether you use Fel armor or Demon armor. Haunt is the only spell providing a considerable direct damage and self healing also. Voidwalker. Warriors faking interrupts! Berserker Stance: You are tunneled by a warrior and he has the interrupt ready. If you're using it vs Mages be sure you have Detect Invisibility on you so they have a chance to not steal the shield. Later Imp. Will you decide to CS one of the DPSes to peel or the healer in order to try getting a kill? Corruption must be up 24/7 on all. Useful to announce to prepare your mates to get CCs while the opponents are in SF. More damage with only 0.1 channeled cast of Drain Life. No matter what your pressure is, take time to peel properly. Usage of portal Never get pinned on your portal. In order to do your damage rotation you have to keep this spell up. Never. Enchants Head: 29 SP + 20 Resil Shoulders: 23 SP + 15 Resil Cloak: +35 SPen Chest: 20 Resil Wrists: 30 SP Hands: 28 SP + 15 Resil Cloak: +35 SPen Chest: 20 Resil Wrists: 30 SP Hands: 28 SP + 20 Resil Shoulders: 23 SP + 15 Resil Cloak: +35 SPen Chest: 20 Resil Wrists: 30 SP Hands: 28 SP + 20 Resil Wrists: 30 SP Hands: 28 SP + 15 Resil Cloak: +35 SPen Chest: 20 Resil Wrists: 30 SP Hands: 28 SP + 20 Resil Wrists: 30 SP + 15 Resil Cloak: +35 SPen Chest: 20 Resil Wrists: 30 SP Hands: 28 SP + 20 Resil Wrists: 30 SP Hands: 28 SP Waist: Eternal Belt Buckle Legs!! 40 Resil + 28 Stamina and minor speed increase Weapon: +63 SP VIII. My favourite thing is to port AoE fears (Howl, Scream). You're frustrated. And if I'd not be overhitcapped then I just like taking some risks. Most server knows me as Mercedesa. They can do the most damage and good CC chain. Can they peel your resummon? Corruption. If you ever cast a fear on a DPS from other team make sure you put UA as a protection. Usages of Devour Magic The ability that give Warlocks OPness. Superior when playing RLS and Spellcleaves because the pumped damage will be alot more and in a shorter time than MCH. Shadowflame + Spell Lock him in order to 70% slow him for 3 seconds while you have time to Fear him and also re-Fear his trinket if he uses it. Death Coil can be used too to gain few seconds. Fel Dom a Voidwalked and use it's Sacrifice shield to spare some seconds. Either you wait for them to rush you or you'll rush them. EG: 2 of their DPSes go for your healer. Pets X. VI. He goes into Berserker stance so he can interrupt you without 1h+shield. Table of Content I. CoA spec This spec is good when playing most MCH comps since no one will let you have 100% uptime on targets and you are the only one who is gaining advantages of CoE. It's well written and the information is presented in a nice way (with screenshot and stuff). What's a lock to do? Gems VII. March 4, 2015 Why would you go with him in middle? In case you are wondering what stats you want on your gear and spec, look below. Drain Life is the main filler. but still thinking Hpal/Awar is strager than affli/rsham or else there would have be more Lock and not this huge and ridiculous amount of Hpal/Awar. Two silences and dispells You cannot kill them or stop the kill on one of your

mates with only one CS. Reflects/Interrupts and Groundings Yes, the most annoying part of arena is when you get reflected/grounded on your Chaos Bolt/Haunt + Death Coil combo or when you want to cast the 'final' fear on healer in order to score the kill on one of the DPSes and you get interrupted. Tricks Two fears You should always take advantages of Howl of Terror being a different type of fear than Fear. You and your teammate go for their healer and you have your Spell Lock ready. If you're doing it right, pala will have to come to throw a shock/shield/cleanse so you can profit of that and get a howl or ur healer to get a CC. Keep in mind. Immediately after the fear you should focus now getting dots on dispeller. I'll update it soon. I like to stay back with my healer (around the middle) while the other dps goes in and is setting up targets for me. I do use it. Table of Content III. Pets Felhunter. You will get the momento again later. i myself play demonology and there is not a single bit of info about it, yet the general warlock strategies and tactics apply. March 21, 2015 Amazing guide. Fel Dom another Felhunter so the Spell Lock CD will be resetted and you can CS the same player again or another one to end their pressure.
