## BMJ Case Reports

Please read this information before you write your article

### TEMPLATES

- All "Images in ..." MUST be submitted online using this Word template <http://mc.manuscriptcentral.com/bmjcasereports>
  - You will be asked for more detailed information on submission where you can also upload images, multimedia files, etc
  - Further details are available in the [Instructions for Authors](#)

### PATIENT CONSENT

- You must have signed informed consent from patients (or relatives/guardians) before submitting to BMJ Case Reports. Please anonymise the patient's details as much as possible, e.g. specific ages, ethnicity, occupations. **For living patients this is a legal requirement under the UK's Data Protection legislation; we will not send your article for review without explicit consent from the patient or guardian unless it is completely anonymised.** If the patient is deceased the Data Protection Act does not apply but authors must seek permission from the next of kin. If you cannot get signed consent from the next of kin, the head of your medical team/hospital or legal team must take responsibility that exhaustive attempts have been made to contact the family and that the paper has been sufficiently anonymised not to cause harm to the family. You will need to upload a signed document to this effect.
  - Further information is available [online](#)
  - [Consent forms](#) are available in several languages

### PUBLICATION ETHICS

- BMJ takes publication ethics very seriously and abides by the best practice guidance of the Committee on Publication Ethics. BMJ is a member of CrossCheck by CrossRef and iThenticate which is a plagiarism screening service that verifies the originality of content submitted before publication. iThenticate checks submissions against millions of published articles, and billions of web content. Authors, researchers and freelancers can also use iThenticate to screen their work before submission by visiting [www.ithenticate.com](http://www.ithenticate.com)
  - Every article is screened on submission and any that is deemed to overlap more than trivially with other publications will be rejected automatically with no right of appeal**

### FELLOWSHIP

- You or your institution must be a Fellow of BMJ Case Reports in order to submit. Fellows can submit as many cases as they like, access all the published material, and re-use any published material for personal use and teaching without further permission.
  - [Further information](#) on rates and how to purchase your fellowship
  - Contact your librarian or head of department to see if your institution already has a Fellowship

WE DO NOT ISSUE REFUNDS ON FELLOWSHIP FEES  
APART FROM IN VERY EXCEPTIONAL CIRCUMSTANCES

- The Information will be published without my name attached and JNMA will make every attempt to ensure my anonymity. I understand, however, that complete anonymity cannot be guaranteed. - The text of the article will be edited for style, grammar, consistency, and length.
- The Information may be published in the journal, which is distributed worldwide. The journal goes mainly to doctors but is seen by many non-doctors, including journalists.
